EDUCATION

- **College of Engineering Roorkee** Roorkee, India
Bachelor of Technology in Information Technology May 2019 - May 2023

EXPERIENCE

- **Eapro Global Pvt. Ltd** Roorkee, India
Software Engineer Aug 2023 - Current
 - **Ghrahak Sahayata Portal:** Designed and developed a responsive website facilitating product registration, complaint booking, warranty extension, status tracking. Implemented user login via email and phone, and created a dedicated dealer section for managing registrations and tracking.
 - Additionally, developed an end-to-end billing management service, enabling dealers to seamlessly record, retrieve bills, warranties, and other pertinent attachments, including legal files.
 - **Buisness Management:** Developed multiple services, such as a work tracker, internal data flows for EAPRO's business management software, aimed at boosting system functionality and efficiency.

PROJECTS

- **Library Management System**
Semester Project
 - Created a library management system complete with a frontend utilizing HTML, JavaScript, and CSS technologies, complemented by a PHP backend.
- **Virtual Classroom Network**
Semester Project
 - Worked on developing a system that aimed at providing students functionality to write their own notes during online classroom, which are then saved in accordance to the order of their classes.
