PROFILE SUMMARY

Skilled ASP.NET Developer with hands-on experience in designing and developing responsive web applications. Proficient in .NET Core, MVC, and modern front-end technologies such as AngularJS and Tailwind CSS. Demonstrated expertise in delivering end-to-end solutions, including billing management and video content management platforms. Strong analytical and problem-solving skills with a focus on optimizing system functionality.

WORK EXPERIENCE

Eapro Global ltd India, ASP .Net Developer Oct 2024 – Current

- Customer Support Portal:** Designed and developed a responsive website facilitating product registration, complaint booking, warranty extension, status tracking. Implemented user login via email and phone, and created a dedicated dealer section for managing registrations and tracking.

Eapro Global ltd India, NAPS Aug 2023 – Oct 2024

- Business Management System:** Developed multiple services, such as a work tracker, internal data flows for EAPRO's business management software, aimed at boosting system functionality and efficiency.

PERSONAL PROJECT

Library Management System (Semester Project)

- Developed a Library management system with a PHP backend and a responsive frontend using HTML, JavaScript, and CSS.

Virtual Classroom Network (Semester Project)

- Designed an interactive platform that enabled seamless note taking aligned with class schedule, resulting in a 25% reduction in time spent searching for class materials
